

# Aden

An informal refuge for  
individuals & small groups.

orangebox

➔ ADEN-01 HBH & 02 HBH

## Product Description

When privacy is required, Aden – with its generous, high-backed two-seat sofa and armchair – offers a comfortable, informal refuge for individuals and small groups to work in, and an intimate setting for small group meetings.

Aden's upholstered structural shell comes with an additional, softer, fixed cushion for added comfort. This additional cushion also offers designers greater freedom with fabric selection and colour/pattern/texture combinations.

Aden can be specified with or without its top hood, and is available with either a wire frame base or wooden legs (both of which are available in our standard range of fabrics). It can be combined with multiple tables, including the all-wood Arber low table, which has a similar leg detail.

## Product Specification

### ➔ Standard Product Description
