Steelcase

Introducing FrameFour: Focusing. Teaming. Conferencing. Collaborating.

Work is a series of transitions. We move from individual to group work, collaboration to personal focus. FrameFour® makes transitions practically seamless, providing a consistent ecosystem of spaces that support resident, nomadic, meeting workstyles throughout the work environment.

D2068 1 FRAMEFOUR SINGLE TELESCOPIC DESK (AT, ZW), THINK TASK CHAIR (GAJA C2C 2040, 3D KNIT 05), FRAMEFOUR SQUARE MEETING TABLE (WY, WY), QIVI CHAIR WHITE SHELL BACKREST (TR 04, TR09)

A range of spaces.

FrameFour provides a complete workplace for mobile and resident workers. Real estate-efficient workspaces that support technology and tools.

FOR THE RESIDENT ZONE

This resident work area provides individual privacy while fostering connections and collaboration that helps support the group’s interactions. Each workspace offers plenty of work surface, storage, technology support and tools. The adjacent enclosed space enables privacy and focus while keeping a sense of connection to the larger group.

D2105

FOR THE NOMADIC ZONE

Whether working alone or with others, workers can see and be seen by their peers. FrameFour comes in desk and bench configurations, with either a supporting storage leg or a four-leg frame. The collaborative space nearby is a convenient haven for information sharing and brainstorming. A consistent aesthetic with floating tops helps unite the entire work environment.

D2066

FOR THE MEETING ZONE

This flexible space is designed for deep collaboration, supporting the cycle between individual and collaborative modes throughout the duration of a project. Integrated cable management, uninterrupted leg room and broad expanses of worksurface, all part of FrameFour’s broad statement of line, invite users for productive work sessions.

Support for every workstyle.

For nomadic workers who need longer term workspaces, these temporary homebases support task work to focus and rejuvenate. The personal locker integrated in the storage leg keeps belongings secure, puts bags and backpacks within easy reach and offers multiple power outlets. A casual collaboration area provides a change of posture and a setting for sharing, evaluating and generating content.

Dedicated resident workspaces support users during long periods of focused work. Monitor support, along with storage for personal belongings, maximizes the work area, while screens provide visual privacy. FrameFour can be customized to adapt to workers' needs thanks to a wide set of features.

Designed for collaboration

LARGE CONFERENCE ROOM

A formal conference room sets the tone for informative, leader-led meetings. Well-appointed tools, amenities and hospitality extend the performance of this space.

D4113

D4112

PROJECT ROOM

A space that accommodates small and large groups. Project teams are able to immerse themselves in information and work. Informational, evaluative and generative collaboration are supported. When needs change, the space can be quickly reconfigured.

CREATIVE TEAM ZONE

This collaborative space is a convenient haven for information sharing and brainstorming. Ideas can be shared quickly and easily with full height whiteboards for analogue content display.

Ergonomics tailored to individual needs

Different work modes and workstyles require different ergonomic support. Integrated rail supports adjustable monitor arms, lighting, and worktools. Screens add privacy. Power and data are easily within reach. Wide ranging choices make it easy to provide precise ergonomic comfort and support with FrameFour.

D2080 | FRAMEFOUR TELESCOPIC / C:SCAPE SCREEN / PLURIO MONITOR ARM / DASH LAMP

D4038

SOFT EDGE
significantly reduces unhealthy pressure on forearms and reduces shoulder and neck fatigue.

D3671

INTEGRATED RAIL
supports worktools, monitor arms and lighting to expand the workspace, reduce clutter, and increase productivity.

D3151

POWER ACCESS DOOR
puts outlets within easy reach.

D4108

SLIDING TOP
provides easy access to power.

Make it yours.

A workspace that adapts to individual workstyles and preferences boosts user comfort, engagement and productivity.

D2091

The FrameFour storage leg makes it easy to touch down and get right to work.

D2076

Storage leg keeps bags off the worksurface and out of the aisle, yet close at hand.

D2075

Recharge up to three different devices simultaneously.

D2079

Belongings are safe, secure and out of the way in the personal locker.

PLANNING IDEAS

An ecosystem of spaces throughout the workplace.

FrameFour offers application possibilities for the entire work environment. Open plan and private spaces, benching, collaborative and social areas, dedicated and shared desks.

Choose from desking, benching, collaborating or meeting settings in a wide array of modular approaches and sizes with technology support, worktools, lighting, and privacy components that integrate seamlessly with FrameFour. Now every part of the office can support workers and work styles.

RESIDENT ZONE

Either working in teams, or alone, FrameFour offers desking and benching solutions for residential zones.

SUSTAINABILITY

DESIGNING FOR THE ENVIRONMENT REQUIRES INNOVATIVE THINKING AND SOLUTIONS.

LIFE CYCLE

During our products development process we consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life.

Thanks to the Life Cycle Assessment (LCA) method, Steelcase is quantifying FrameFour environmental impacts to set the stage for further improvements. This method, based on ISO 14040 and 14044 and selected by The European Union for environmental evaluation, allows us to quantify the environmental impact of our products throughout their whole lifecycle.

MATERIALS

Wood from European sustainably managed forests.

100% recycled cardboard.

PRODUCTION

Made by Steelcase in Rosenheim, Germany.

Optimised packaging to keep transport volumes as low as possible and improve filling rates.

TRANSPORT

Made in Europe, close to customers.

USE

Designed for a long product life, with replaceable parts.

Maintenance information available upon request.

END OF LIFE

100% theoretically recyclable cardboard and LDPE film for packaging.

Quick and easy disassembly.

Plastic parts clearly labelled for easy sorting and effective recycling.

Designed to encourage responsible end of use strategies - refurbishing, charitable donation or recycling.

CERTIFICATIONS

To show continuous improvements, we communicate FrameFour environmental performance through voluntary environmental labels and declarations. Sustainability related actions and results are communicated in the annual Steelcase Corporate Responsibility report.

PRODUCT

EPD - Environmental Product Declaration (Targeted)

PEP - Product Environmental Profile (Targeted)

NF Environnement (Targeted)

NF Office Excellence Certifié (Targeted)

Blauer Engel RAL-UZ 38 (Targeted)

SCS Indoor Advantage™ Gold (Targeted)

Cradle to Cradle™ certified Bronze (Targeted)

MATERIALS

PEFC - Programme for the Endorsement of Forest Certification

E1 - Low concentration of formaldehyde in wood

PLANTS

ISO 14001 - Environmental management system

EMAS - European Eco-Management and Audit Scheme
