➔ CONVO

Product Description

Convo is an adaptable collection of training, meeting and conference tables featuring a variety of shapes and a choice of top depths. The collection ranges from small footprint single seat tables through to large format 20-seater meeting tables, and features both static and flip-tops.

Convo's flip-top tables can be quickly and easily reconfigured to respond to the ever-changing needs of the office. Top depths range from 700mm right up to 1400mm, thanks to the combination of our tried and tested flip release mechanism and low profile ski design, which gives stability even when tops are extra deep.

The frame design provides consistency across the Convo collection's wide range of static and flip-top options, on ski widths of 600mm, 900mm & 1200mm. To better facilitate linking (where necessary), flip-top tables have square edges. The static range can, however, be specified with any of our expansive range of edge profiles and finish options.

A choice of top shapes (rectangle, barrel and oval top).

Convo offers fully integrated power and data cable management and a low profile concealed castor in the ski leg assembly to improve portability.
