Slender and comfortable: Representative armchair
for the office, meeting place and lounge area
Design: Wolfgang C. R. Mezger

finasoft:
The slender, comfortable conference chair,
available as a swivel chair or in a cantilever design.
Extremely slender design with outstanding comfort: finasoft, available as a swivel chair or cantilever. The finasoft carries the fina design range into the meeting area and impresses with an uncomplicated comfort in the process. Thanks to an innovative dynamic spring-steel linkage, even the base version offers a pleasant, sprung seating feel. Options include a special tilting mechanism to ensure healthy and active seating. Design: Wolfgang C. R. Mezger

– Lightweight look and feel with a high level of comfort
– Presentable look
– Available as a swivel chair or in a cantilever design, even in a high-back version
– High quality build with innovative details
– Smart, simple comfort thanks to a dynamic spring-steel linkage or tilting mechanism
– Coordinated cast aluminium parts
– A great fit with torino, state and spira table systems

Areas of application

office

Slender, comfortable and functional – as well as being a good fit: finasoft is outstandingly suitable for the meeting room and can meet the highest demands in an office setting.

Overview of models

Presence in the meeting room.

Ideal for an appealing presence: the slender finasoft conference chair boasts impressive form and function and exudes a discerning bearing. High-quality workmanship, with a diecast aluminium frame and fully upholstered shell, optionally with fabric or leather covers. All versions offer comfort: the chair's ergonomically moulded beech plywood shell is both flexible and sturdy. Furthermore, depending on the model, a spring steel linkage with damping elements or a tilting mechanism with optional weight adjustment make for health, active, seating. finasoft is also a perfect match for the MIS-capable table systems from the torino, state and spira ranges.

finasoft stands for a slender design with a great deal of comfort. Also available in a high-back version.

6722

Flexibility for the office.

Not just for the meeting room but also in office settings, finasoft is the slender solution that meets the highest demands. The comfortable conference chair is available as a swivel chair with a high-quality diecast aluminium stand, with three different frame options: the two versions with a spring-steel linkage offer a pleasant, damped, three-dimensional rocking motion; these models are available with height adjustment or automatic return mechanism. The third model, which is available with or without casters, has a tilting mechanism for back adjustment. A weight mechanism ensures that this can be adjusted individually to suit the user's weight within a range of approximately 45 kg to 120 kg.

The four-footed beams underline the sleek design while also meeting all safety requirements (DIN-EN 1335 approved).

6734/AG

Comfort for the meeting.

The attractive cantilever design completes the finasoft product range for up-market work and meeting areas. The slender office and conference armchair is also available in a high-back version and its ergonomically molded seat shell offers the highest levels of comfort, even during prolonged meetings. Selected models offer an additional feature: after the meeting, the cantilever chairs can be stacked with ease in stacks of up to four chairs.

finalounge:
the armchair for relaxed waiting – sleek and comfortable.
There is even a sleek alternative for lounge areas: finalounge, an armchair in the typical lightweight fina design, which surprises users with an extraordinary level of seating comfort. The fully upholstered shell is wider than usual, while still maintaining a sleek appearance. The chair is a perfect match for conference armchairs from the finasoft range. For even greater comfort, the armchair can optionally be fitted with a return mechanism. Matching side tables are also available: these also have an aluminium stand and round table tops in various design variants.
Design: Wolfgang C. R. Mezger

– Comfortable lounge chair with extra seating width
– Very sleek look
– Extraordinary seating comfort
– Refined look and feel thanks to high-quality upholstery and aluminium base
– Return mechanism optional
– Also available with upholstered arm-rests
– Available accessory: matching side tables

Areas of application

lounge

Pleasant, extraordinary
seating comfort:
finalounge is perfect
for relaxed waiting.

Overview of models

Relaxation for employees and guests.

finalounge offers a variety of design options – for a customised lounge area. The sleek armchair is also available with enclosed, fully upholstered arm-rests, while the ergonomic fully upholstered shell ensures the highest levels of seating comfort no matter what options are selected. Whether alone, in a seating circle or in combination with the matching side tables: finalounge creates an atmosphere conducive to relaxed waiting and communication.

Side tables: with round table tops and with a choice of glass or wood. Surface for wooden table tops: HPL or oak veneer.

Exactly as you want it: finalounge is optionally available with a return mechanism and comes in a choice of any colour from the house collection.

Notes

See the current pricelist for details, prices and terms of business.
Technical changes, errors and colour variations excepted.
Some of the models depicted are special, premium-cost designs.
Wood is a natural product. For our furniture ranges, we use only
high-quality beech from sustainable forestry sources.
Despite the woods being carefully selected, there may be variations
in colour. Variations in colour and pattern are not grounds for
product returns but rather an expression of the unique character
of wooden furniture.
